Methicillin-Resistant *Staphylococcus aureus:* How Reliable is Laboratory Reporting? Fleming DW, Helgerson SD, Mallery BL, Foster LR, White MC 3:164-167.
Methicillin-Resistant *S. aureus* and *S. epidermidis* Strains: Modern Hospital Pathogens Wenzel RP 2(suppl):118-119.
Microbial Examination of Kidney Lithotripter Tub Water and Epi-

dural Anesthesia Catheters Cooper GL, Roberts JT, O'Brien A, Kelleher M, Dretler SP, Battit GE, Hopkins CC 4:216-219.
Nosocomial Bacteriuria: Estimating the Potential for Prevention by Closed Sterile Urinary Drainage Burke JP, Larsen RA, Stevens LE 2(suppl):96-99.
Nosocomial Bloodstream Infections: Secular Trends in a Statewide Surveillance Program in Virginia Morrison AJ, Freer CV, Searcy MA, Landry SM, Wenzel RP 11:550-554.
Nosocomial Colonization of T Bear,The Hughes WT, Williams B, Williams B, Pearson T 10:495-500.
Nosocomial Dermatophytosis Caused by *Microsporum canis* in a Newborn Department Mossovitch M, Mossovitch B, Alkan M 12:593-595.
Nosocomial Infection and the Irreducible Minimum Ayliffe GAJ 2(suppl):92-95.
Nosocomial Infection Prevalence, Risk and Control in Small Community and Rural Hospitals Scheckler WE, Peterson PJ 2(suppl):144-148.
Nosocomial Infections in 15 Rural Wisconsin Hospitals—Results and Conclusions from 6 Months of Comprehensive Surveillance Scheckler WE, Peterson PJ 8:397-402.
Nosocomial *Mycobacterium gordonae* Pseudoinfection from Contaminated Ice Machines Panwalker AP, Fuhse E 2:67-70.
Nosocomial Outbreak of Hand-Foot-and-Mouth Disease Among Operating Suite Personnel Johnston JM, Burke JP 3:172-176.
Other Approaches to the Prevention of Aspergillosis Speller DCE 2(suppl):125-127.
Outbreak of Group A Streptococcal Bacteremia in an Intensive Care Unit, An Nicolle LE, Hume K, Sims H, Rosenal T, Sandham D 3:177-180.
Outbreak of Staphylococcal Infection in Two Hospital Nurseries Traced to a Single Nasal Carrier Belani A, Sherertz RJ, Sullivan ML, Russell BA, Reumen PD 10:487-490.
Physiologic and Microbiologic Changes in Skin Related to Frequent Handwashing Larson E, Leyden JJ, McGinley KJ, Grove GL, Talbot GH 2:59-63.
Plasmid Analysis of Simultaneous Nosocomial Outbreaks of Methicillin-Resistant *Staphylococcus aureus* Kozarsky PE, Rimland D, Terry PM, Wachsmuth K 12:577-581.
Prevalence of Colonization with Antibiotic Resistant Gram-Negative Bacilli in a Nursing Home Care Unit: The Importance of Cross-Colonization as Documented by Plasmid Analysis Shlaes DM, Lehman MH, Currie-McCumber C, Kim CH, Floyd R 11:538-545.
Prevalence of Hepatitis B in Employees of Small, Rural Hospitals—Implications for Vaccine Administration, The Martin DB, Jannausch M, Skendzel LP 2:64-66.
Prevalence of Measles Antibodies in Hospital Personnel Chou T, Weil D, Arnow PM 6:309-311.
Prevention of Nosocomial Infections in Marrow Transplant Patients: A Prospective Randomized Comparison of Systemic Antibiotics Versus Granulocyte Transfusions Petersen FB, Buckner CD, Clift RA, Nelson N, Counts GW, Meyers JD, Thomas ED 12:586-592.
Risks of Transmission of the HTLV-III and Hepatitis B Virus in the Hospital, The Shanson D 2(suppl):128-132.
Selective Screening of Hospitalized Patients for the Presence of Asymptomatic Hepatitis B Virus Carriage: Predictability Based on Census Tract Data Baddour LM, Jennings BR, Osborne PT, Rendtorff RC, Moffatt MC, Luther GM, Holcomb JL 11:546-549.
Serratia marcescens Infections Acar JF 5:273-278.
Skin as a Source for Hospital Infection Noble W 2(suppl):111-112.
Skin as a Source of Nosocomial Infection: Directions for Future Research Maki DG 2(suppl):113-117.
Sources of Pneumonia in ITU Patients, The Sanderson PJ 2(suppl):104-106.
Strategies for Preventing Neonatal Group B Streptococcal Disease Goldmann DA 2(suppl):137-139.
Strict Versus Modified Isolation for Prevention of Nosocomial Transmission of Methicillin-Resistant *Staphylococcus aureus* Ribner BS, Landry MN, Gholson GL 6:317-320.
Suppurative Thrombophlebitis: Correlation Between Pathogen and Underlying Disease Johnson RA, Zajac RA, Evans ME 12:582-585.
Surveillance for Postoperative Infections in Outpatient Gynecologic Surgery Garvey JM, Buffenmyer C, Rycheck RR, Yee R, McVay J, Harger JH 2:54-58.
Susceptibility to Varicella-Zoster Virus Among Adults at High Risk for Exposure Alter SJ, Hammond J, McVey C, Myers MG 9:446-449.
Systemic and Topical Antimicrobial Agents in the Prevention of Catheter-Associated Bacteriuria and its Consequences Simpson RA 2(suppl):100-103.
Transmission of Hepatitis B and AIDS Garibaldi RA 2(suppl):132-134.
Viability of Staphylococci in Various Diluents Essiain R, Flournoy DJ 7:370-372.
Wound Infection Newsom W 2(suppl):109-110.
Wound Infection After Cesarean Section Pelle H, Jepsen OB, Larsen SO, Bo J, Christensen F, Dreisler A, Jorgensen PJ, Kirstein A, Kjoller M, Lange A, Laursen K, Nickelsen CNA, Osler M, Rasmussen H 9:456-461.
Zero Infection Rate: An Achievable Irreducible Minimum in Clean Surgery? Kaiser AB 2(suppl):107-109.

DEPARTMENTS

Book Reviews

Antibiotics in Laboratory Medicine Stratton CW 5:293-294.
Clinical Manual of Pediatric Infectious Disease Townsend TR 7:388.
Current Therapy in Pediatric Infectious Disease Townsend TR 12:610.
DRG Survival Manual for the Clinical Laboratory Stratton CW 7:388.
Learning Guides for the Medical Laboratory Pullen G 4:230.
Principles of Clinical Chemistry Chamberlain RT 2:88.
Theoretical Epidemiology: Principles of Occurrence Research in Medicine McGowan JE Jr 11:557.
Urinary Tract and the Catheter, Infection and Other Problems, The Kunin CM 5:294.

Clinical Pharmacology of Antibiotics

Acyclovir Zabrosky CA, Milkovich G 4:228-229.
Review of Imipenem Park S, Parker RH 6:333-337.
Metronizadole Eggleston M 10:514-521.

Cost Containment in Infection Control

Cost-Effective Blood Cultures—Is it Possible or Impossible to Modify Behavior? Neu HC 1:32-33.
Cost-Effective Use of the Throat Culture in Acute Pharyngitis Tiersten D 3:188-191.
Diarrheal Disease in the Hospitalized Patient Gilligan PH 12:607-609.
DRGs and Outpatient Antibiotics Iannini PB 5:289-290.
When Should We Use Urine Cultures? Stamm WE 8:431-433.

Editorials

Application of Plasmid Analysis to Infection Control Schaberg DR 7:353-354.
Can We Protect Our Patients and Employees from Childhood Diseases? Gröschel DHM 6:307-308.
Methicillin-Susceptible "Methicillin-Resistant Staphylococcus aureus": A Sheep in Wolves' Clothing Peacock JE 3:161-163.
Minimizing Antimicrobial Resistance in Hospital Bacteria: Can Switching or Cycling Drugs Help? McGowan JE Jr 12:573-576.
Observations on the Consortium Method of Infection Control Ehrenkranz, NJ 8:395-396.
Of Soap and Semmelweis Bryan CS 9:445-447.
Old Wine in New Bottles Wenzel RP 10:485-486.
Preparation of the Skin for Surgery Craig CP 5:257-258.
Postoperative Infection Surveillance Gibbs RS 2:53.
Tuberculosis Surveillance in Hospital Employees: Are We Doing Too Much? Lowenthal G, Keys T 4:209-211.
Yeast Infection in Immunocompetent Patients: Fomenting Ferment to Foil the Fermenter Henderson DK 1:13-15.

Infection Control and Employee Health

AIDS Update: HTLV-III Testing, Immune Globulins and Employees with AIDS Valenti WM 8:427-430.
Hepatitis B Prevention Part 1—A Review of the ACIP's Newest Guidelines Valenti WM 2:74-77.
Marketing a Hepatitis B Vaccine Program Haas R, Beideman ME 6:339-341.
